Dear \_\_\_\_\_

As a special favour to Prof. R. Wyburn-Mason of Richmond, Surrey, I am sending you on loan a copy of his book entitled "THE CAUSATION OF RHEUMATOID DISEASE AND MANY HUMAN CANCERS - A NEW CONCEPT IN MEDICINE".

I am sending you this book at his request as you showed interest in his work.

This book is expensive (in excess of \$120), but you are welcome to keep it as long as you are using it until I request it returned. If you are loaning it to other people, will you officially pass it on, notifying them of their responsibility, and me so as I can keep a track of this valuable book.

Prof. Wyburn-Mason was successful in curing my daughter, now 18, initially with the product Clotrimazole, and as research developed, to Flagyl, and finally Fasigyn 500 as manufactured by Pfizer Laboratories. Although she is a cripple and is in a wheelchair, she no longer has pain. Unfortunately she contracted arthritis as a baby and was put on Cortizone etc., for 13 years which did untold damage to her bone development and growth.

I am doing all possible to spread the success of Prof. Wyburn-Mason's work which I believe is the answer to much suffering.

Yours sincerely,

Terry Crommelin
