Dr. Jack M. Blount;
Dr. Gus J. Prosch, Jr.;
Dr. Eugne S. Wolcott

Dear Doctors:

Dr. Kwang W. Jeon of the University of Tennessee, Knoxville University Campus (phone: 615-974-2999) has not received any knee samples from which to identify the Limax amoeba.

Dr. Blount says that he has drawn several samples, but they were mixed with blood, and he discarded them.

On Querying Dr. Jeon, he states that he does not think this will matter, to send along such samples.

Please, folks, we need this identification!

Cordially,

Perry A. Chapdelaine, Sr.
