Regarding your letter of 5/22/84:

Do you have references on use of Anti-Protozoal drugs on cultured Macrophages? Are they different than papers mailed to you? If so, please send the references and we shall secure a copy from Vanderbilt.

Are you going to be able to locate any references regarding Macrophage Chromosome Count?

By now you've got Blount's note on Roger's technique of placing E. coli in tubes when transporting them. Blount will be adding fecal material to his samples (before Flagyl) from now on.
