PERRY A. CHAPDELAIN, SR.
Executive Director/Secretary

Richard C. Franson, Ph.D.
Associate Professor of Biochemistry
Medical College of Virginia
Department of Biochemistry
PO Box 614
Richmond, Virginia 23298-0001

Dear Dr. Franson:

I am in receipt of your proposal, "The Effect of Clotrimazole and Related Agents on Cell-free, Calcium-dependent Phospholipase A₂ Activity in Human Synovial Fluid."

Your proposal looks quite exciting.

I will reproduce the proposal for our Advisory Committee. Meanwhile please note the priority for funding projects that has recently been developed by the Board during their last regular meeting. Our approval of your proposal hinges solely on (1) favorable review by the Advisory Committee and Board, and (2) getting funding through our agent, Response Development. I understand that Hal Smith was to have a meeting with you and Dr. Regelson on the latter, so you perhaps understand where we stand on funding as well as I do.

Cordially,

Perry A. Chapdelaine, Sr.

C: William Regelson, M.D.
Dr. Gaylen Bradley
Hal Smith
